Dear Jeanne:

Per the Government Accounting Office (GAO) Audit Report of December 1998, and your request of June 1999, the Ohio EPA, Division of Emergency and Remedial Response, has completed a file review for the Treasure Island Landfill/Manhattan Dump Site and determined that this site should remain in CERCLIS but document that it is currently under other cleanup program authority (i.e., VAP activities associated with the DaimlerChrysler Jeep Expansion). Ohio EPA understands that this site may be re-evaluated by US EPA to ensure that cleanup progress is being made, so that CERCLIS can reflect sites that need to be addressed by Superfund.

CERCLIS shows this site as having had a last activity (ESI) with a completion date of September 27, 1993.

This letter should fulfill the GAO audit commitment for this site. If you have any questions or need additional information, please contact me at (419)373-3035.

Sincerely,

Archie L. Lunsay, II
Division of Emergency & Remedial Response
